C++ ★★★★★

EXPERIENCE

Nepal Telecom, Internship

I have completed my two weeks internship in Backbone Transmission System at Backbone Transmission Directorate at Nepal Telecom.

LANGUAGES

English, Nepali, Hindi

PROJECTS

Line following Robot with wireless charging— *minor project*

My minor project was a Robot that followed a particular path assigned to it and itself stopped in the Charging Station.

Digital ordering and Co-ordinate based food delivery Robot— *major project*

My Major project involved a food delivery Robot, which takes orders from the user through an app. And the demand is sent to a Database. The Robot will then deliver the food to the user.
